

Cafe2U takes part in the World's Biggest Coffee Morning

The figures are now in and the combined total of Cafe2U's efforts is £928.55

The day was a success for many of the Cafe2U franchisees who not only raised money for a worthwhile cause, but also introduced themselves to many new potential customers.

Macmillan have so far raised in excess of £2.5 million and will see the total continue to grow throughout the year. Visit www.macmillan.org.uk for more information.

Cafe2U franchisees have also been quick to pay in their monies so their money can start to help the campaign as soon as possible and as a bonus they can also be entered into the Macmillan prize draw to win a luxury coffee machine courtesy of Gaggia!

By holding the coffee mornings for Macmillan each of our franchisees and their respective customers have been able to do their bit to help improve the lives of people living with cancer.

This was the first year that Cafe2U participated in this event and will certainly join together again to help make next years event even bigger and better. It is hoped that Cafe2U will have almost 3 times as many franchisees by this time next year which will mean 3 times the effort and at least 3 times the fundraising total.
